# Raken

Certifications & Labor Map

Better leverage your workforce with certification tracking
and a visual Labor Map.

Assign certifications

From our web app, assign certifications to each team member. Upload the certification, add attachments, and enter the expiration date.

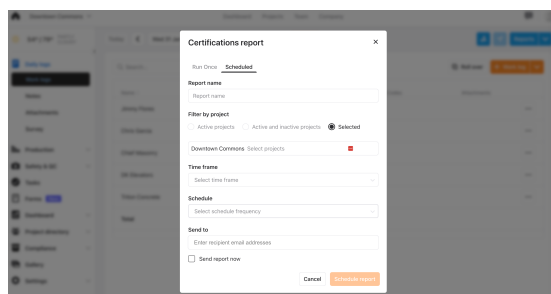

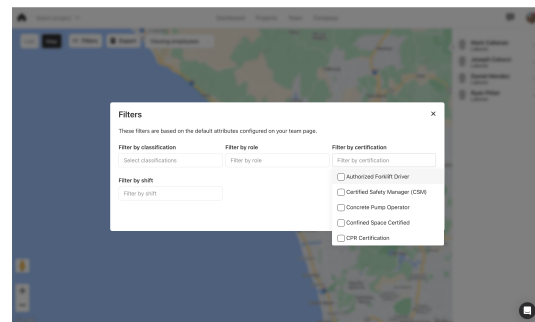

Track worker locations

Open your Labor Map to see where each team member last clocked in based on time card data from the past 30 days.

Filter results

Use filters to show only employees that meet specific criteria. Sort by certifications, classification, shift, and role.

Manage skilled labor

Easily view and report on certifications in Raken to centralize management, ensure compliance, and simplify workforce planning.
