

# Time Tracking

See which of Raken's flexible time entry options is best for your business.

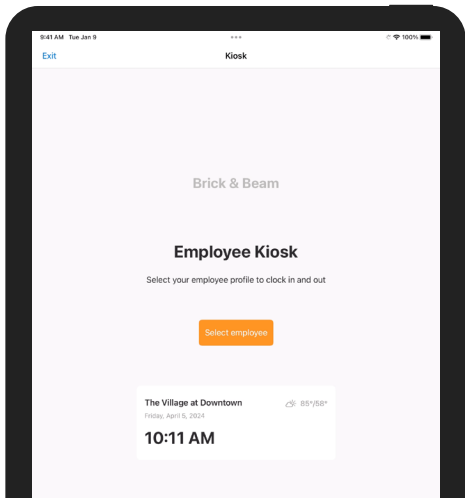

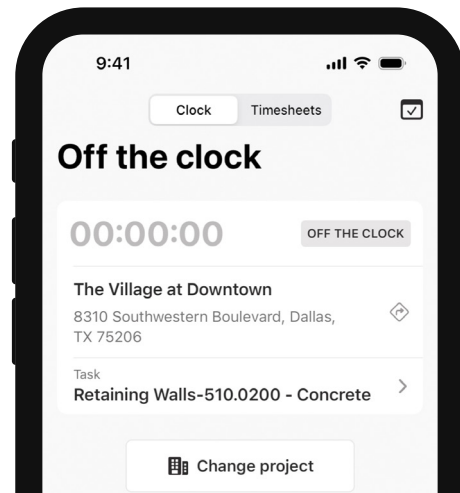

## Time Clock

### Workers clock in and out on their individual devices

Invite workers to download Raken's streamlined time clock app to clock in on their phones or tablets. Verify worker hours and location with GPS.

#### Why you should use it

- Quickly identify violations
- Prevent time theft and buddy punching
- Save time for foremen and supervisors

## Kiosk

### Workers clock in and out on a shared device

Enable kiosk mode on a company or project level and activate it on a shared device with location tracking. Workers will clock in and out as needed.

#### Why you should use it

- Use a traditional-style time clock with digital convenience
- Manage the way workers clock in and out in a central location
- Save time for foremen and supervisors

## Time Cards

### Supervisor-led time tracking

Get centralized control over time tracking with digital time cards supervisors create and manage for workers and crews.

#### Why you should use it

- Enable coordinated crew tracking
- Give supervisors oversight of all tracked time
- Let workers focus on project tasks
