

# Time Tracking

Save time and improve payroll accuracy with easy-to-use time tracking tools and automated insights.

## Flexible time entry

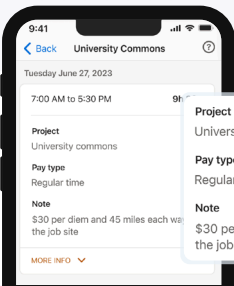

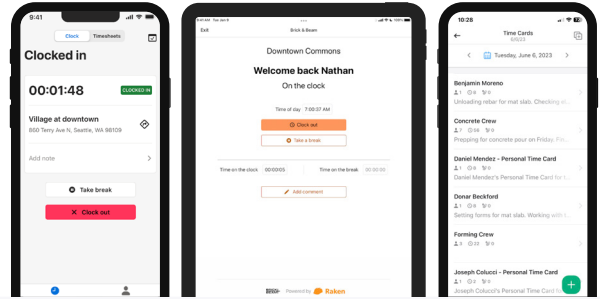

Choose how the field tracks work hours and breaks:

**Time clock\*** - Workers clock in and out on their device

**Kiosk\*** - Workers clock in and out on a shared device

**Time cards** - A supervisor tracks time for their crew

\*Includes location tracking

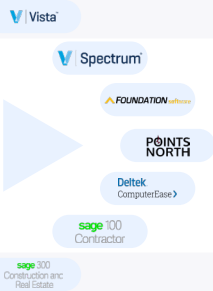

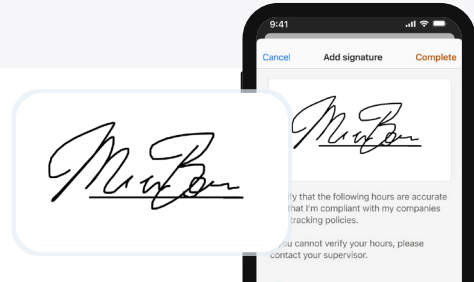

## Critical details tracked

Add unlimited custom cost codes, select shift and pay type, and include payroll notes for maximum accuracy.

## Easy reviews and approvals

Workers and supervisors review and approve timesheets, tracked for all your projects in one place.

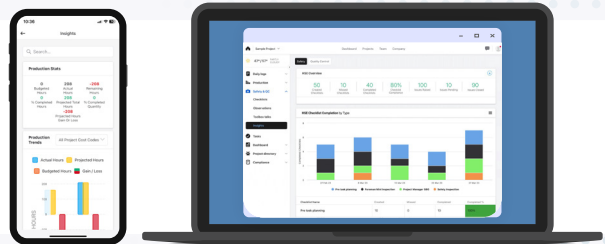

## Automatically synced data

Integrate Raken with your accounting software for faster payroll (and less manual data entry).

## Detailed production insights

All timesheets data is automatically organized into production insights that show progress at a glance.

**“Raken has significantly reduced the time needed to put together and process payroll.”**

— Payroll Administrator, D.L. Henricksen
