

# Raken for General Contractors

Improve reporting, minimize risk, and better manage projects with our easy-to-use web and mobile app.

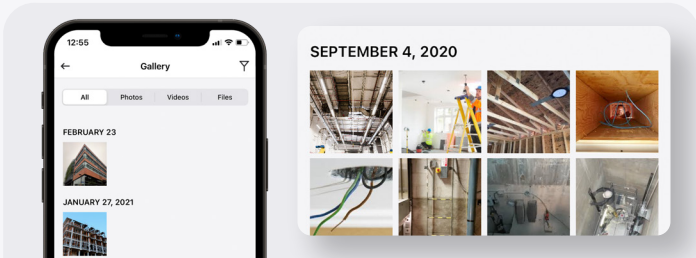

## Improve jobsite communication

Complete daily reports from any mobile device, attach time-stamped photos and videos, and share with the office instantly with a click or tap of a button.

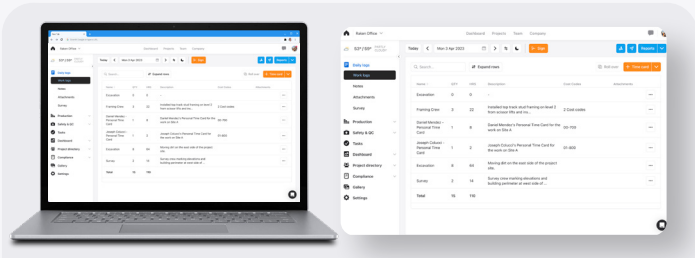

## Minimize risks

Keep safety top of mind with our library of 100+ toolbox talk topics and streamline documentation with standardized safety and quality checklists.

## Manage subcontractors

Give subs access to reporting features for free with our Super Daily feature and create custom segments by supervisor, shift, or location.

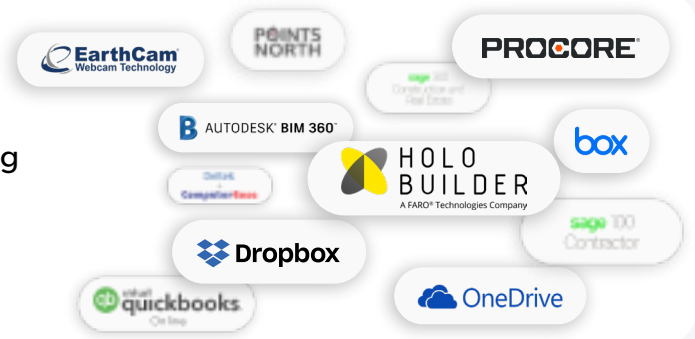

## Monitor progress

Quickly assign tasks and track work hours, material use, and equipment across every project in real-time with automated production insights.

## Integrations

Raken connects seamlessly with industry-leading solutions for project management, accounting, cloud storage, and webcam monitoring.

**"We were able to see substantial time savings just by using Raken."**

— Rich DeLacy, Project Superintendent at Hensel Phelps
